

International Journal of Precision Engineering Manufacturing -Green Technology

Special Issue Invitation

Topic: Energy Harvesting

About IJPEM-GT

IJPEM-GT is published by both the Korean Society for Precision Engineering (KSPE; hardcopy) and Springer (online version). The journal is published quarterly, and JCR 2017 impact factor is 3.774, which ranks it top 8.2% (11/128) journal in the category of Engineering-Mechanical and top 9.8% (5/46) journal in the category of Engineering-Manufacturing.

Topics of the special issue cover novel research contributions of "Green" precision engineering and manufacturing - theories and applications in the field of

- Piezoelectric, triboelectric, thermoelectric, hybrid harvesting materials, devices and systems
- Modeling and analysis for energy harvesting and storage
- Energy storage materials and systems
- Energy harvesting circuits and interfaces
- Applications of energy harvesting and storage (e.g. self-powered IoT sensors, smart-dust, device, robot, automobile, home, factory and etc.)

Submission Procedures

Both Research and Review papers are welcome for possible publication in this issue.

Deadline for Submission Date	December 31, 2018
Publication Date	August 15, 2019
Volume Number	Vol. 6, No. 4
Search for IJPEM-GT	www.springer.com/40684
Submission to IJPEM-GT	www.editorialmanager.com/jpgt/

Guest Editors

- Prof. Shad Roundy (University of Utah, USA)
- Dr. Miso Kim (Korea Research Institute of Standards and Science, Korea)
- Prof. Gilyong Lee (Kumoh National Institute of Technology, Korea)

Editorial Board

Editor-in-Chief

Sung-Hoon Ahn (Seoul National University, Korea)

Co-Editors-in-Chief

Joost Duflou (University of Leuven, Belgium)

Haedo Jeong (Pusan National University, Korea)

Andrew Yeh-Ching Nee (National University of Singapore, Singapore)

Friedrich B. Prinz (Stanford University, USA)

Yoshimi Takeuchi (Chubu University, Japan)

Frank Vollertsen (BIAS, Germany)

Paul K. Wright (University of California, Berkeley, USA)

Senior Editor

Dong-Gyu Ahn (Chosun University, Korea)

Editor

Suk-Won Cha (Seoul National University, Korea)

Fengzhou Fang (Tianjin University, China)

Nick Fang (Massachusetts Institute of Technology, USA)

Christoph Herrmann (Technische Universität Braunschweig, Germany)

Sohee Jeong (Korea Institute of Machinery & Materials, Korea)

Sungho Jeong (GIST, Korea)

Beom Joon Kim (The University of Tokyo, Japan)

Gyu Man Kim (Kyungpook National University, Korea)

Jaehwan Kim (Inha University, Korea)

Changwoo Lee (Changwon National University, Korea)

Mitsutaka Matsumoto (AIST, Japan)

Shreyes Melkote (Georgia Institute of Technology, USA)

Byung-Kwon Min (Yonsei University, Korea)

Sangkee Min (University of Wisconsin-Madison, USA)

Simon Park (University of Calgary, Canada)

Young-Bin Park (UNIST, Korea)

Jun Yanagimoto (The University of Tokyo, Japan)
